

# Quest 55" 65" 70" 84"

## Interactive LED Multi-Touch Display

### Features Highlights

- 55" 65" 70" or 84"
- 4K (84" only), 1080p
- 6-point multi-touch
- Ultra-fast response time
- Integrated speakers
- Built-in PC (optional)
- Flow!Works annotation software

### Practical for Education

Bring **multiple students** to the Quest screen at once with **6-pt touch** and **ultra-fast** response time. Create lessons that engage students and encourage teamwork - for **less overall cost** than an interactive whiteboard.

With our complementary software, **Flow!Works**, and its many educational features, instructors have all the tools to create fun, interactive lessons.

# Quest 55" 65" 70" 84"

## Interactive LED Multi-Touch Display

### A screen size for all

No more squinting from the back of the classroom! With a range of sizes - 55" 65" 70" & 84" - and a crisp image, there is a screen size for every classroom.

### 6-Point Multi-Touch

Enjoy smooth 6-point multi-touch gestures that help teachers create interactive and memorable lessons.

With 6-point multi-user technology, multiple students can collaborate on screen at once.

### Wall or Mobile Stand

Fit for rooms of any size and shape - mount your Quest touch display on the wall or on a mobile stand.

Ask us about mounts and mobile stands that work best with the Quest monitor.

### Integrated PC & Speakers

Teachers who are on-the-go can store their lessons on a thumb drive and simply stick it in the built-in PC to quickly load lessons. Video and audio is no hassle with built-in speakers. (PC is optional.)

### Why upgrade from an Interactive Whiteboard?

By replacing your traditional interactive whiteboard with a Quest Multi-Touch Display, you'll save loads of grant money from installation and annual upkeep.

No more lightbulbs to replace, no more projector to calibrate, and less energy consumed.

### 4K / 1080p HD Resolution

A high-definition screen makes it easier for every student to see the lesson.

With a variety of connections, teachers can connect old or new devices to the screen.

### Flow!Works Software

Create interactive lessons and activities with Flow!Works Annotation Software. This included software is a great way to complement your interactive classroom.
